PROFILE SUMMARY

Fresh graduate in Information Technology with hands-on experience in full-stack web development using PHP, MySQL, JavaScript, and modern web technologies. Proficient in Git version control and collaborative development practices, with proven ability to deliver enterprise-level applications from conception to deployment.

EDUCATION

STI San Jose Del Monte – Bulacan | Bachelor of Science in INFORMATION TECHNOLOGY, 2021 - 2025

WORK EXPERIENCE

Full-Stack Developer | Evergreen Realty Philippines | San Jose Del Monte, Bulacan | Feb 2025 – May 2025

- Developed a Lot Management System using PHP, MySQL, and JavaScript with Ajax for real-time data updates to track lot availability, pricing, and land area for sales and administrative teams
- Built complete payment tracking system with automated installment scheduling, transaction history, and specialized calculation tools (OCS Calculator) using jQuery for dynamic interactions and Git version control for collaborative development

CERTIFICATES

- Getting Started with Full Stack Java Development | Simplilearn
- Full-Stack Development | Simplilearn
- SAP Business One Systems Integration & Arch | FIT Academy

PROJECTS

Project Manager | GammaCare Medical Services Inc. | Amparo, Caloocan

- Led development of web-based HRIS using PHP, MySQL, JavaScript, and jQuery with OpenAI API integration, featuring AI-powered resume keyword checker and automated document enhancement for HR communications
- Created comprehensive database architecture with responsive HTML/CSS interfaces and implemented Git version control, doubling employee management efficiency through streamlined HR processes

Full-Stack Developer | Manila Central University | EDSA, Caloocan

- Developed Health Center Management System using PHP backend with MySQL database, JavaScript, and Ajax for dynamic content loading to manage patient records, vaccination logs, and medical inventory
- Implemented event tracking functionality with responsive UI using HTML, CSS, jQuery, and Git version control for health-related activities including vaccination programs and medical seminars

SKILLS

Frontend: HTML, CSS, JavaScript, React, Tailwind CSS, Typescript
